### Emergency Contact Information

Information courtesy of Investigator Janine Gedmin

The State of Florida Department of Highway Safety & Motor Vehicles has a website that allows drivers to enter two "Emergency Contacts" into their database which will then be connected to your driver's license. This will eliminate lost time contacting loved ones if you are ever in an accident and are rendered unconscious.

Go to [www.hsmv.state.fl.us](http://www.hsmv.state.fl.us) click on "Emergency Contacts", put in your driver's license and birth date. It will then ask for the name, address, and phone number of the two people you want to have contacted, click the save button and you're done.
