PURPOSE:

The purpose of this directive is to establish policy for the Monroe County Detention Facilities to offer Educational, Vocational, and Treatment Programs to inmates who wish to take advantage of such activities. Eligibility will be based upon inmate behavior, motivation, and classification or court order. [FCAC 16.14] There is no discrimination regarding administrative decisions or program access based on an inmate's race, religion, national origin, gender, sexual orientation, or disability. Discrimination on the basis of disability is prohibited in the provision of programs. [ALDF-6B-02 and 6B-05] [CORE-6B-02]

SCOPE:

This directive applies to all personnel.

PERSON RESPONSIBLE:

GENERAL INFORMATION:

The Monroe County School Board provides instructors who will conduct Educational and Vocational Programs within the Detention Facilities. Inmate participation in these

programs is voluntary. Gain time may be awarded for satisfactory completion in the programs.

Programs are comparable for both males and females. Neither gender is denied opportunities on the basis of its smaller number in the population. [ALDF-6B-03] [CORE-6B-02]

The Guidance Care Center provides staff to conduct the Jail In-House Treatment Program (JIP).

POLICY AND PROCEDURES:

Educational and Vocational Programs
[CORE-2A-20]

Inmates shall have access to Educational Programs and, when available, to Vocational Programs. Educational and vocational programs will address the needs of the inmate population. Inmates may participate by submitting an Inmate Request Form to the Programs Services Division. Inmates also have the Inmate Tablet available in all units and dorms, which offers educational and vocational application programs [FCAC 16.14] [ALDF-5A-09]

Classrooms have been designed in consultation with school authorities. When any new

educational or vocational programs are offered, the school authorities will be consulted on classroom designs for the new programs. [ALDF-5A-10]

Selection of inmates for programs will be based upon space availability and the inmate's behavior, attitude, motivation and classification. [FCAC 16.14] Inmates' access to programs is not precluded by inability to pay. [ALDF-6A-09] [CORE-6A-08]

If educational television is available, it shall be on from approximately 0800-1700 hours. Normal television will not be allowed when the education channel is being televised.

The Marathon/Plantation Key (KV/PK) Facilities will forward inmate requests to the Programs Services Director for approval. Programs Services will get clearance from Classification reference the inmate's classification.

- Adult Basic Education
- GED Preparation
- Life Management Skills
- Vocational Programs
- Substance Abuse Program (AA-Alcoholics Anonymous and NA-Narcotic Anonymous)

Jail In-House Treatment Program (JIP)

JIP is primarily for court order inmates. JIP is basically a therapeutic community treatment program that includes monitoring and drug testing. [ALDF-5A-04]

If space is available, eligible and appropriate non-court ordered inmates may be allowed to participate in JIP. It is preferred that these volunteer inmates be referred by their attorney. The inmate must want to participate and have at least six months left on his or her sentence.

There is a treatment philosophy within the context of the total correctional system as well as goals and measurable objectives. These

documents are reviewed at least annually and updated as needed. [ALDF-5A-05]

There is an appropriate range of primary treatment services for alcohol and other substance-abusing inmates that include, at a minimum, the following: [ALDF-5A-06]

- inmate diagnosis
- identified problem areas
- individual treatment objectives
- treatment goals
- counseling needs
- drug education plan

- culturally sensitive treatment objectives, as appropriate
- the provision of self-help groups as an adjunct to treatment

- coordination efforts with community supervision and treatment staff during the prerelease phase to ensure a continuum of supervision and treatment

The facility uses a coordinated staff approach to deliver treatment services. This approach to service delivery is documented in treatment planning conferences and in individual treatment files. [ALDF-5A-07]

There are incentives for targeted treatment programs to increase and maintain the inmate's motivation for treatment. [ALDF-5A-08] Some examples are:

- judge might shorten the inmate's sentence upon successful completion
- driver's license bureau might reinstate driver's license

Inmates have access to a chemical dependency treatment program. When a chemical

dependency program exists, the clinical management of chemically dependent inmates includes at a minimum the following: [ALDF-4C-37]

- a standardized diagnostic needs assessment administered to determine the extent of use, abuse, dependency, and or codependency
