	RESCINDS:	
	BUREAU: Corrections	NO. OF PAGES: 3
	CHAPTER: Admissions and Releases	 <hr/> Sheriff of Monroe County
	TOPIC: Extradition Proceedings	

**PURPOSE:**

The purpose of this directive is to establish policy for the Monroe County Detention Facilities for extraditing fugitives.

**SCOPE:**

This directive applies to all Records Personnel and the Intake/Release Sergeant.

**PERSON RESPONSIBLE:**

Records Assistants.

**DEFINITIONS:**

Fugitive - A person that leaves (flees) demanding state either before conviction or after conviction of a crime.

**JUDICIAL PROCESS:**

- Charge is filed and warrant of arrest is issued and placed in FCIC/NCIC.
- Fugitive is located by authorities.
- Authorities in demanding state are notified, and those authorities request the suspect be held.

- Fugitive is taken before a magistrate. If it appears to the magistrate that the person is the one charged in the demanding state and has fled from justice, he shall commit him to the county jail for (30) thirty days to allow the demanding state time to submit formal extradition papers (see F.S.S. 941.15). This thirty (30) day period can be extended for an additional sixty (60) days (see F.S.S. 941.17).

The proper procedure for court appearances on extradition in the State of Florida is an initial (First) appearance after arrest on the fugitive warrant. At that time if the subject does not waive, a thirty (30) day hearing is scheduled. At the thirty (30) day hearing if the Governor's Warrant has not been perfected, a sixty (60) days extension is granted. No more than three (3) hearings should be held before service of the Governor's Warrant.

The magistrate may admit the fugitive to bail during this period of time in such sum as to insure his appearance at subsequent hearings and at the time the Governor's Warrant arrives. However, if the offense charged is punishable by death or life imprisonment, the fugitive may not be released on bail.

Florida State Statutes prohibit bonding on a Governor's Rendition Warrant [see F.S.S. 941.10(2)].

BOC - 2:009	Date of Original: Jan 1994	1
	Previous Revision Date(s): 9/15/99, 1/19/11	
Dissemination Date: 5/10/13		Effective Date: 5/17/13

**NOTE: Some states still admit bonding on a Governor's Rendition Warrant. If the Governor's Warrant is perfected after the ninety (90) day fugitive warrant period expires, the Governor's Warrant is still valid and the fugitive may be arrested again on this warrant.**

- Once the fugitive has been apprehended, the agency seeking the extradition should immediately be notified and asked to confirm whether or not they will extradite.
- Once the documents arrive in the Governor's Office, they are reviewed for legal sufficiency. If approved, the Governor's Requisition and Agent's Appointment are prepared and forwarded to the asylum state's Governor's Rendition which is sent to the asylum county for service. In the reverse, a demand is sent to this office by the demanding state and after legal review a warrant is issued and forwarded to the holding county for service.
- Fugitive is arrested on the Governor's Warrant and is taken before a judge or a court of record where he or she is informed of the demand made against him, the crime in which he is charged, his right to counsel, and his right to test the legality of his arrest in a habeas corpus proceeding (see F.S.S. 941.10). If the fugitive wants to petition for a writ of habeas corpus, the judge shall fix a "reasonable time" to allow the filing of the petition, and shall set a time and place for a hearing on the petition.

**NOTE: Prosecutors in the asylum state, as a courtesy to the demanding state, should expedite these habeas corpus proceedings as quickly as possible. In some instances, attorneys for the defendants have taken advantage of this phase of time to file habeas corpus petitions and have asked for hearing dates far into the future.**

- At the habeas corpus hearing, the fugitive is limited to challenging whether he or she is substantially charged with a crime, the legal sufficiency of the extradition documents as to legal form, whether or not he or she is a fugitive from justice, and raising the claim

that he or she is not the person sought by the demanding state. The burden is upon him or her to show non-identity. A photograph and/or fingerprints or a complete physical description should be provided, where possible, to assist the prosecution in the asylum state in establishing identity. Most states require some type of identification be included in the extradition paperwork.

- When the fugitive is arrested on an out-of-state charge(s), the arresting deputy will provide a teletype upon arrival (message retrieval) VIA MR: to Records Assistant FCIC/NCIC Terminal on the fugitive.
- All fugitive (out-of-state) arrest must attend a mandatory first appearance before bonding even if the teletype states a bond. Once the arrestee has seen the first appearance judge and he or she has set a bond, the arrestee may bond. Once the bond has been posted, call the Clerk of the Courts to have an extradition hearing scheduled. Use the Arraignment Date Form for notification.

- Excessive Perspiring
- Pattern is not clear
- Direct the inmate on the proper stance which is:
  - Face the printing table, shoulders squared
  - Feet pointing forward shoulder width apart
- Direct the inmate to relax and instruct him/her not to help you maneuver their fingers or hands.
- Stand to the left of the inmate while printing his or her right hand, stand to the right of the inmate while printing his or her left hand.
- Insert fingerprint card into the cardholder.
- Beginning with the right thumb and then in the following order index, middle, ring and little finger, ink each finger by rolling the finger from one edge of the nail to the other and from tip to just below the first joint.
- Roll the inked finger in the indicated space of the finger print cards by holding the inmate's hand with a firm grip using both hands when rolling the finger.
  - Use your thumb and index fingers to hold the inmate's fingertip.
  - Use your other hand to hold the inmate's wrist by placing your thumb between the inmate's thumb and index finger and curl our fingers over the inmate's fingers.
  - Apply pressure uniformly, depending upon the inmate's ridges.
  - Roll the thumbs toward the inmate's body and the fingers away from his or her body.
- Roll the thumb and fingers fully
  - Nail to Nail
  - Fingertip to a 1/4 inch below the joint
- Repeat the above process for the other hand.
- Make the plain or simultaneous impressions by pressing straight down on the indicated spaces.
  - Four fingers of each hand
  - Thumbs one at a time

### **Palm Prints**

- Direct the inmate to ink both palms completely until the palm is significantly inked.
  - From fingertip to a 1/4 inch below the heel of the palm
  - From the outer ridge to the inner ridge
- Place the palm print card a flat surface.
- Place the inmates' fingertips on the print card and roll his or her hand on to the card using a forward motion.

  - Vary the amount of ink.
- Excessive Perspiring
  - Dry each finger separately before each print is taken.
  - Use alcohol on fingertips to keep them dry.
- Bandaged or amputated finger

## LS3000R LIVESCAN TRAINING

Each deputy has his or her own login to start the computer. The LiveScan machine runs on a Windows platform and uploads the fingerprints to Tallahassee via our ISP. Once the prints arrive at Tallahassee, they have to be manually classified according to the swirls and whorls. From there, they are uploaded into the database and the top three matches are selected. An analyst must then manually match the minutiae to identify an exact match.

We need to log all fingerprints from the LiveScan machine into the OBTS (Offender Based Transaction System) Logbook.

When first coming to the screen, an OBTS number will be displayed. Select "Next" and the Demographic screen will come up. Enter the Case Number. Enter the subject's name starting with Last Name, First Name, Middle Name, and Suffix. E.g. Sr., Jr., etc... A maximum of 30 Characters may be input into this field. If the subject's name is longer than 30 characters then you may use the subject's middle initial.

Next, is a drop down menu for the subject's gender: Select Male or Female.

Next is a drop down menu for Race. Hispanic is not a choice. If a person is light Hispanic, you may use "White." If a subject is a dark Hispanic, you may use "Black."

Date of birth is to be entered by month, day and year. All four numbers of the year must be input.

Once you have ensured the information is correct, select Next.

### **DO NOT USE MOIST WIPES ON THE SCAN AREA!!**

If you use moist wipes on the scan area, moisture will get into the machine and destroy it. Each Scanning module costs around \$3,000.00 and is only manufactured in Germany. Replacement will take a very long time!!

Use the green cloth provided to wipe away any ghost images. You may use the moisture wipes on a subject's hands, but allow them to dry briefly before scanning.

Place the subject's fingers on the scanning area and then either select "Scan" on the touch screen with your finger or mouse, or depress the foot pedal. When you hear the tone, begin rolling. Once you hear the second tone, remove the subject's hand from the scanning area. If you do not remove the hand, you will get an error message and have to re-scan.

The first screen is the Thumb Slap. Both thumbs are placed together on the large scan pad so they make an imprint inside the blue box. Use only as much pressure as needed to clearly see the prints. Scan the thumbs. Once you are finished you will get a message saying the scan is complete and will prompt you to move on to the next screen. You may either select “Next” on the touch screen or use the mouse or depress the foot pedal.

The first hand to be printed will be the Right Hand. First is the Four-Finger Slap. The fingers must be orientated as closely to North/South on the scan pad as possible. The four-finger slap becomes the reference for all other prints from the subject, so it is very important to print these correctly.

**DO NOT PRINT THE FOUR-FINGER SLAP AT AN ANGLE!!**

Doing so will cause the entire print card to be rejected and we will have to re-print the subject. If the fingers are at a slant, the machine cannot properly map the minutiae and will therefore be unable to confirm if subsequent prints are from the same subject.

Place the four fingers on the large scan pad ensuring that all show clearly within the blue box. Once you are ready, scan the four-finger slap. Move on to the next screen.

When rolling fingers, place the finger on the small screen. When you are ready, depress the foot pedal and roll the finger and lift it off in a smooth motion and lift the finger off the scan pad. You will see the print magnified on the display as you roll it. You will not get a second tone. If you leave the finger on the scan pad you will receive an error message. If you do not roll the finger after pressing scan (either by touch screen or foot pedal), you will get an error message and must re-scan.

You may roll the fingers in either direction across the scan pad. Place the finger on its edge to one side of the blue cross-mark, which is in the center of the screen. As you roll the finger, the center of the print should fall as close as possible to the center of the cross-mark.

Please ensure the following when fingerprinting:

- Do not use too much pressure: You will see the prints will be very dark on the screen, making it difficult to identify individual minutiae.
- Ensure the Delta’s are clearly visible before moving on to the next screen.

We have several new prints we are scanning with the LSS3000R. These are Upper Palm, Lower Palm and Writer’s Palm.

When printing the upper palm, be sure and place the upper portion of the palm below the blue line. The fingertips are used as reference to ensure the correct hand is being printed. You should place the thumb under the slanted edge of the scan pad. In most cases this will place the upper palm in the correct position. Please ensure the palm and fingers are oriented as North/South on the scan pad as possible to get the best comparison.

The Lower Palm is next, and you will see a blue line running across the top 1/3<sup>rd</sup> of the screen. The top line (or Heart Line) of the palm should be placed ON the blue line. The machine will use the upper palm print just scanned to match to the lower palm.

Lastly, you will scan the Writer's Palm. This is an image of the palm on its edge as if you were writing with a pen. Place the edge of the palm inside the blue box on the right side of the scan pad. When the image is clear, scan.

You have now completed the Right Hand. The same steps will be repeated for the Left Hand.

Once the two hands are completed, the machine will save, compile and display the Ten Print Card. A letter grade will be shown next to each print. "A" is best, but if you see an "R" you MUST rescan that print. You may either select an individual print by using the mouse or touch screen. When you select a print, a yellow box will highlight it. Select, "Reprint" and a screen will come up prompting you to rescan the print.

After you have completed all the prints and are satisfied with them, touch "Next" on the bottom of the screen and then touch "Finish." The foot pedal will not work on these two screens. The machine will automatically send the prints to Tallahassee for evaluation.

After Tallahassee have received, acknowledged and evaluated the prints, they will send a series of messages back to the machine. When the DDCE is complete, the machine will print the cards.

The LSS3000R must be restarted at least once per day. If you are responsible for restarting the machine, you must ensure the scan pads are clear of ghost images first. Upon restarting, the machine recalibrates the scan pads. If there are any ghost images, you will not be able to get them off no matter how much you clean the scan pad!

If you happen to get a subject that has a bandage or an amputation, select "Options" when you're ready to scan that print. Select either "Amputee" or "Bandaged" then print as much of the affected area as possible.

Please ensure that the subject removes any wedding bands they are allowed to keep while in jail before they are fingerprinted so as not to scratch the surface of the scan pads.

  <b>MONROE COUNTY SHERIFF'S OFFICE</b>	BUREAU DIRECTIVE: BOC - 2:013	REFERENCES: None
	RESCINDS:	
	BUREAU: Corrections	NO. OF PAGES: 2
	CHAPTER: Admissions and Releases	 <hr/> Sheriff of Monroe County
	TOPIC: Inmate Holds/Pick-Up Orders	

**PURPOSE:**

The purpose of this directive is to establish policy for the Monroe County Detention Facilities that inmate holds will be processed in an accurate and expeditious manner in order to prevent a premature release or unlawful detention.

**SCOPE:**

This directive applies to all Records Personnel.

**PERSON RESPONSIBLE:**

Records Assistants.

**POLICY AND PROCEDURES:**

**Placing Holds on Inmate**

Placing holds on inmates will be accomplished as follows:

- When an inmate is received requiring a hold for another jurisdiction, a hold order, teletype or similar document is required. If a hold is placed without one of these documents, it must be verified by the Records Supervisor.

**NOTE: Records Personnel shall note all holds and detainers in SmartCop. When**

**ready to be placed into an inmate's file, they will be photocopied onto fluorescent orange paper so that it will be immediately visible to anyone reviewing the file's contents.**

- When placing a hold that requires identification verification, attach an information form to the inmate's file stating that the hold will be verified as soon as possible. When verified with the appropriate agency, ensure that a teletype message is sent to the appropriate jurisdiction by the Records Assistant stating a hold will be placed.
- Notify the respective agency by telephone if needed. When we receive an inmate with a hold for a contract agency (e.g., U.S. Marshal, Customs, Border Patrol, Immigration & Customs Enforcement), the date, time, and name of person notified shall be placed in the inmate's file.
- An affidavit must be completed by the Arresting Deputy or Intake/Release Sergeant on all holds, and the inmate will be advised of the hold at 1st Appearance.
- For U.S. Marshal (USM), Customs, Border Patrol, and Immigration & Customs Enforcement (ICE) inmates/detainees, the 203 form or other likewise detainer form along with the Order to Detain or Release Alien form will be forwarded to the BOC Finance Assistant on each inmate/detainee.

## Removal of Holds

Holds must be removed from SmartCop and the orange Detainer Information Form in the inmate's file. Write "cancel hold via confirmation from teletype" on the detainer cancelled on line of the Detainer Information Form.

## Inmate Cleared of all Local Charges and has a Hold for another Jurisdiction

When an inmate is clear of all local charges and has a hold for another jurisdiction, a teletype message will be sent to that agency notifying them that they have ten days in which to pick up the inmate or he or she will be released. If the other jurisdiction does not pick up the inmate and has not responded with a time to pick up the inmate, that inmate must be taken before our county judge for further instructions.

**NOTE: If the agency notifies that they are in route, the inmate will not be released until the agency arrives.**

## Out-of-County Pick-Up Order

When an out-of-county pick up request is made for a Monroe County inmate(s) who has an open case in Monroe County, the hearing judge and Monroe County State Attorney's Office must be informed by telephone and sent a faxed copy of the Pick-Up Order before allowing the out-of-county agency to pick up the inmate(s). This is to ensure the inmate is not out-of-county when our county judge is ready to hear the inmate's case. Our judge hearing the case must agree to the Pick-Up Order before allowing the inmate to be picked up. Verbal acceptance by our judge hearing the case will be written on the contact sheet.

If our county judge or the State Attorney's Office denies the Pick-Up Order, you must notify the requesting agency informing them of the denial and, if the out-of-county agency wants to talk with our judge or State Attorney's Office, provide them the point of contact.

Such proper legal documentation shall remain in the juvenile's file at the detention center at all times. [FCAC 23.01]

### Juvenile Mistakenly Detained

When an inmate professes to be a juvenile and is not being housed by court order to stand trial as an adult, or when an inmate may be identified as a juvenile by a credible source, the deputy who first hears or receives such a report will perform the following steps:

- Separation: Segregate the inmate from the adult population.
- Investigation: The Intake/Release Sergeant will attempt to determine the true age of the inmate by:
  - Questioning the inmate
  - Obtaining from the inmate the names, addresses and telephone numbers of parents, guardians, or adult relatives who may confirm the inmate's age
  - Telephoning the person(s) named by the inmate advising them that the inmate is in custody, and ask them to verify the inmate's age
- Non-Confirmation: If the inmate is not declared to be under eighteen (18) years old by the person(s) contacted, prepare an incident report starting with the name and relationship of the person contacted, the date of the inmate's birth as stated by them, and other pertinent aspects of the conversation. Attach the record of the conversation to the inmate's jail file and direct that the inmate be placed in the appropriate cell according to classification.
- Confirmation: If the person(s) confirm that

the inmate is under eighteen (18) years old, request that they bring proof of the inmate's age to the facility as soon as possible. Proof of age should be verified by a Birth Certificate, School Records, or other official documents reflecting date of birth.

- Documentation and Notification: Upon receipt of proof of age, the Intake/Release Sergeant will write a complete report and attach a copy of the documents used to verify age.
  - Notify the arresting agency that the inmate placed by them in confinement at the county facility is a juvenile. The arresting agency will transport the inmate to DJJ or release to his or her parents, legal guardian, or responsible adult.
  - Disposition of how the inmate is released will be obtained and placed in the inmate's file.
  - Forward the incident report to the Operations Commander via the chain-of-command.
- Release: The Intake/Release Sergeant in charge shall follow established release procedures with these additional actions.
  - Revised records shall be completed for the juvenile and attached to the original records when the inmate was booked as an adult.
  - All will be placed with the release paperwork after procedures have been completed.

**NOTE: If a juvenile is brought in and requires a court date, the Records Assistant will complete Form 8.930, Juvenile Notice to Appear, and issue the juvenile a court date. At the top of the form is a section for the parent, legal guardian, or responsible adult to sign. Attach a copy of the arrest affidavit to the form and hand it to the parent, legal guardian, or responsible adult.**

Once all the information is entered onto the cash bond receipt, and after Florida State Statue 939.17 bonding procedures are explained to the depositor, then the depositor will sign on the line identified as "Depositor's Signature" only if they are listed as the depositor.

**NOTE: If the inmate is bonding him/herself out, the depositor's information will be the same as the defendant's, and the inmate will sign both the defendant's and depositor's signature lines.**

If approval is given, the Cash Bond Form must be completed and forwarded by the Finance Division to the Clerk of Courts in that county.

**SURETY BONDS**

Surety bonds are prepared at all Monroe County Jail Facilities. The information is provided to the bondsman by the Records Assistant / KV/PK I/R Deputy.

Bonds are prepared by accredited agents of insurance companies known as bondsmen.

A bondsman must be registered with the Monroe County Clerk of the Court before being permitted to write bonds in Monroe County.

A bondsmen list with all bondsmen registered with the Monroe County Clerk of the Court is maintained by the Programs Staff Assistant. The Programs Staff Assistant will rotate the names on the list each month and ensure a copy is posted in the KW Detention Center's lobby, the Records Division, and at the KV and PK Detention Facilities.

If a bondsman is not registered, he or she will not be allowed to write bonds until he or she is registered.

The Monroe County Clerk of the Court will notify the Monroe County Jail Facilities of any change to be made to the bondsmen list.

## Bonds

Surety bonds consist of two parts - the bond itself and the power.

Bonds may differ in size and color from company to company. The bond will usually be the larger of the two documents, and contains information such as the defendant's name, charge, power number, arrest number, date, amount of bond, race, sex, date of birth, court date, and division.

When checking the bond, make certain that the returnable county is listed on the bond whether it is Monroe County or another county.

At the bottom of the bond there are spaces for signatures.

One is for the Sheriff's signature and/or authorized agent, and the other is for the Records Supervisor/designee's / KV/PK I/R Deputy's signature.

The space labeled "Principal" is for the defendant's signature. The defendant must sign his or her name in full as it appears on the bond.

One space is for the bondsman's signature.

If a mistake is made on the bond, the bondsman may correct the mistake. The surety bond must contain the bondsman's seal.

### Expiration Date

On different types of bonds there are expiration dates. Make sure that if there is an expiration date that it is valid/current.

### Bond Power (Amount Limitation)

The power will usually be the smaller portion of the surety bond. The top of the power will be labeled "Not to Exceed the Amount of \_\_\_\_\_."

### "Stacking of Bonds" Prohibited

A bondsman cannot write a bond for an amount that exceeds the amount shown at the top of the power, and cannot write two powers for the same charge since the bond may exceed the power amount. This is known as "stacking of bonds."

## Splitting Bond Amount

It is permissible for two different bondsmen to split the amount of the bond and each of them submits a bond and a power.

### Bond Power

The power contains information such as the defendant's name, charge, date, bondsman's signature, etc.

### Bond Power Error or Mistakes

If a mistake is made on the power, it cannot be corrected, and the bondsman must write another one.

Some bondsmen will place a seal on the power, but it is not mandatory.

If there is a space on the power for the court, make certain that the correct county is listed.

### Bond Copies

Surety bonds for Monroe County charges can be accepted if the individual is in custody in another county.

Verify the charges prior to accepting the bond.

Indicate signature not available on the bond, and send a teletype to the holding county stating that a bond has been posted for the Monroe County charge.

The following items should be checked for every bond received:

- Case Number
- Date
- Power Number
- County and Court
- Same Name on the Bond as is on the Arrest Report
- Amount of Bond

- Defendant's Signature
- Bondsman's Signature
- Bondsman's Seal
- Records Supervisor/designee's / KV/PK I/R Deputy's Signature

The following items should be checked for each power received:

- Amount under bondsman limit
- Amount same as on Bond
- Correct County and Court
- Bondsman's Signature
- No erasures or alterations on the power

### **OUT-OF-COUNTY BOND**

A person who is in a Monroe County Detention Facility on charges from another county can usually bond out on those charges as if they were Monroe County charges.

Notify the other county via teletype that the person is in custody and ask the authorized detaining authority if the person may post bond.

When the bond is written, it must state that the court is in another county.

The bond must indicate the other county, and the power must indicate the County Seat (City).

**NOTE: Before a defendant is released from the Monroe County Detention Facilities, an up-to-date FCIC/NCIC/QW will be completed to insure no additional active warrants on the inmate.**

### **PROPERTY BONDS**

Property bonds will only be accepted by the authorization of the Sheriff's Attorney.

If all paperwork is in order, a memorandum from the Sheriff's Attorney will authorize the release.

### **SUPERSEDEAS BONDS**

A Supersedeas Bond is an order from the committing judge which supersedes a sentence and allows the defendant to be released from jail.

The bond is usually allowed pending motions for mitigation of sentence. The order will remain in the Records Division until the subject returns to jail.

The bondsman must go to the Clerk of the Courts to write the bond for the defendant.

The Clerk of the Courts will ensure original bond is delivered to the Monroe County Detention Facilities Records Division that authorizes the release of the defendant.

### **Clerk of the Court Approval and Presence**

Under no circumstances will bondsmen submit supersedeas bond without the approval and presence of the Clerk of Court.

Supersedeas Bonds will be completed Monday-Friday, 8:30 a.m. until 5:00 p.m. by the Clerk of the Courts.

### **Supersedeas Bond Procedures**

Upon receipt of the faxed Supersedeas Bond copy from the Clerk of the Courts:

- The Records Assistant / KV/PK I/R Sergeant are responsible for obtaining the original Supersedeas Bond.
- The Records Assistant / KV/PK I/R Deputy will ensure that the defendant is properly released out of the computer.
- The Supersedeas Bond copy and all releasing paperwork will be scanned into the Fortis imaging system.
- The original Supersedeas Bond will be forwarded back to the Clerk of Courts.

### **"NEBBIA HEARING" (bond condition)**

"Nebbia Hearing" is a written bond condition requested by the State Attorney and signed by the Judge.

The State Attorney commonly requests Nebbia Hearing bond condition for charges dealing with RICCO and drug cases.

The State Attorney agrees on the bond amount, however, the defendant cannot be released from jail until the necessary paperwork/documents are completed by the person(s) posting the bond.

This is done for the purpose of proving to the state Attorney/Court that the bond moneys were received by legal means.

### **Booking Procedure**

When a warrant and/or a Magistrate Action Form is annotated "(\$ Bond - Nebbia Hearing" required before releasing from jail, the following additional information needs to be annotated in SmartCop Jail booking.

- Bond Section: Enter the bond amount.
- Conditions Section: Annotate "Nebbia Hearing" required prior to release. Contact State Attorney if bond moneys are attempting to be paid.
- **Nebbia Hearings are scheduled when regular court is in session. Generally, the inmate may not be allowed to bond out on weekends unless the Judge further stipulates on the Magistrate Action Form or Court Minutes.**
- Disposition: Annotate same as above.
- Release Screen: Check the boxes "do not release / hold / court order".

### **RELEASE ON OWN RECOGNIZANCE (ROR)**

When an ROR occurs, the individual will be released from jail without having to post bond.

This type of ROR occurs when a judge orders

that the inmate be released ROR.

An ROR can also occur when an individual is booked on a Warrant in county or out-of-county, and the warrant or TTY indicates that the individual is to be ROR'd.

### **TIME SERVED**

After a defendant is sentenced, a release date will be calculated by the Classification Division. Classification will advise the Records Division / KV/PK I/R Deputy of date of release,

### **NO ACTIONS**

The Records Division will research all letters of release received from the State Attorney's Office to determine if the defendant is still in custody.

If the defendant is still in custody, the Records Assistant / KV/PK I/R Deputy will note in the inmate's file the release information and will notify the appropriate divisions for release if no other charges are pending.

### **ADMINISTRATIVE RELEASES**

Administrative Order - Releases authorized by a Judge will be processed through the Records Division / KV/PK I/R Deputy. Proper notification of the Releasing Section will be notified.

### **COURT MINUTES**

The Records Division / KV/PK I/R Deputy will be responsible to retrieve all court minutes from the designated location. All court minutes will be annotated on all necessary paperwork and ensure a safe and accurate release, if any.

### **FEDERAL RELEASE**

The following will be accomplished when an inmate is released on federal charges:

- All federal bonds have to go before the Federal Magistrate.

- The Federal Marshal shall bring to the jail the Magistrate Bond for processing.

### **TEMPORARY RELEASE FROM CUSTODY**

When a law enforcement deputy or officer from another agency wishes to remove an inmate from a Monroe County Detention Facility, they must fill out and sign a Temporary Release Custody Form. When the inmate is returned, the form will be placed into the inmate's file and a copy sent to the BOC Accreditation Division. [FCAC 14.14e]

**NOTE: All absences from the facility shall be maintained in the inmate's record's file.**

### **KV/PK Temporary Release**

KV/PK will hold the file and will treat the inmate as a weekender until the inmate returns.

### **COMPLETION OF RELEASES**

Once a release has been authorized, the Records Assistant / KV/PK I/R Deputy will process the file for release.

The Records Division / KV/PK I/R Deputy will notify the appropriate Divisions for release.

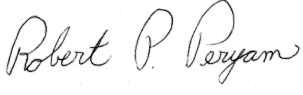

The Records Assistant / KV/PK I/R Deputy will update the computer information to reflect the type of release.

The Release Packet will be scanned into the Fortis imaging system.

	CHAPTER: Admissions and Releases	 <hr/> Sheriff of Monroe County
	TOPIC: Marchman Detainees	

**PURPOSE:**

The purpose of this directive is to establish policy for the Monroe County Detention Facilities to process involuntary admissions (Marchman Detainees) in a professional manner in compliance with applicable laws.

**SCOPE:**

This directive applies to all Certified Personnel.

**PERSON RESPONSIBLE:**

Intake/Release Sergeants.

**DEFINITIONS:** [FCAC 15.13]

Marchman Act - Marchman Act is the law authorizing law enforcement deputies to detain persons who meet criteria for involuntary admission. A person meets the criteria for involuntary admission if there is good faith reason to believe the person is substance abuse impaired **and**, because of such impairment, has lost the power of self-control with respect to substance use; **and either**

- Has inflicted, or threatened or attempted to inflict, or unless admitted is likely to inflict, physical harm on himself or herself or another; **or**
- Is in need of substance abuse services and, by reason of substance abuse impairment, his or her judgment has been so impaired that the person is incapable of appreciating his or her need for such services and of making a rational decision in regard thereto.

**PROCESSING POLICY AND PROCEDURES:**

**Acceptance**

When an adult is brought into the facility as a Marchman Detainee, you shall:

- Key West (KW): Contact the Medical Division to check the person before acceptance.
- Marathon/Plantation Key (KV/PK): Attempt to complete the Medical Screening Form. If the Marchman Detainee won't cooperate, proceed to the next step. If needed, contact the KW Medical Division.
- The Intake Deputy/Sergeant will attempt to get an alcohol level reading from the subject using a handheld sampling device. The subject may refuse to provide a sample.

BOC - 2:034	Date of Original: 9/15/99	1
Dissemination Date: 6/25/09	Previous Revision Date(s): 1/16/06	Effective Date: 7/3/09

The alcohol level or refusal shall be documented on the bottom of the Marchman Act Form.

**NOTE: A Marchman Detainee will not be automatically rejected solely on the basis of a Blood Alcohol Content (BAC) of 0.30% or higher. Medical personnel and the Intake Sergeant will determine if we, as the service provider, can safely manage the medical condition(s) or behavioral problem(s) of the Marchman Detainee (F.S.S. 397.6751).**

- Only a law enforcement deputy can request involuntary admission into a detention center. A licensed physician does not have the authority, by Florida State Statutes, to order an involuntary admission into a detention facility.

**NOTE: The physician can order an involuntary admission into a hospital or detoxification facility, but not a detention facility.**

- A person meets the criteria for involuntary admission if there is good faith reason to believe the person is substance abuse impaired **and**, because of such impairment, has lost the power of self-control with respect to substance use; **and either**
  - Has inflicted, or threatened or attempted to inflict, or unless admitted is likely to inflict, physical harm on himself or herself or another; **or**
  - Is in need of substance abuse services and, by reason of substance abuse impairment, his or her judgment has been so impaired that the person is

incapable of appreciating his or her need for such services and of making a rational decision in regard thereto.

**However, mere refusal to receive such services does not constitute evidence of lack of judgment with respect to his or her need for such services.**

- The law enforcement deputy must give due consideration to the expressed wishes of the Marchman Detainee. For example, a Marchman Detainee tells the law enforcement deputy that he or she is staying at a local hotel and would like to be taken to his or her hotel room. Taking the Marchman Detainee to his or her hotel room would be acceptable, and more appropriate, in lieu of an involuntary admission into the jail.
- The final decision to accept or reject the Marchman Detainee will be made by the Intake Sergeant/officer-in-charge after consulting with the medical staff.
- If a Marchman Detainee is rejected due to medical reasons, the Detaining/Transporting Deputy shall transport the Marchman Detainee to the hospital's emergency room. The Marchman Detainee will remain at the hospital until such time as the attending physician determines that the Marchman Detainee is medically cleared. Once medically cleared, the Detaining/Transporting Deputy may return the Marchman Detainee to the detention facility along with written documentation indicating that the Marchman Detainee is medically cleared. The Intake Sergeant and the jail's medical staff will review the hospital's paperwork and the physical/mental condition of the Marchman Detainee to determine if the Marchman Detainee will be accepted.

- If we, as the service provider, cannot safely manage the medical condition(s) or behavioral problem(s) of the Marchman Detainee, we will discharge the Marchman Detainee and refer him/her to a more appropriate setting for care (F.S.S. 397.6751)

**Again, the final decision to accept or reject the Marchman Detainee will be made by the Intake Sergeant/officer-in-charge after consulting with the medical staff.**

### Forms

The following forms / photographs are required to process an involuntary admission into the detention center:

- Marchman Act: Non-Criminal Detention
- Detaining Deputy's Assessment of Marchman Detainee
- Report of Law Enforcement Deputy Initiating Protective Custody
- Property Receipt
- Medical Assessment Form
- Special Confinement Sheet and Watch Form
- Two (2) photographs

### Transporting Deputy's Forms to Complete

The Transporting Deputy must complete the following forms before a Marchman Detainee will be considered for involuntary admission into the detention center:

- Marchman Act: Non-Criminal Detention

The form must be accurately and fully completed. Carefully check the following areas that have been identified as commonly made mistakes.

- The detaining agency **MUST** be a law enforcement agency. It can **NOT** be a physician or the hospital
- The law enforcement deputy must notify the nearest relative of an adult Marchman Detainee unless the Marchman Detainee requests that there be no notification (F.S.S. 397.6772).
- Detention intake personnel will ask the adult Marchman Detainee if he or she wants a relative contacted. If the adult Marchman Detainee indicates that they do want a relative contacted, detention intake personnel will circle "yes" on the "Marchman Act, Non-Criminal Detention" form and tell the law enforcement deputy that the Marchman Detainee wants his or her relative contacted. Detention intake personnel will write the time they notified the law enforcement deputy and their initials to the right of the request for contact.
- Detention personnel are required to notify the nearest service provider (in our case the Guidance Clinic) **within the first 8 hours of the detention.**

The Intake Sergeant or officer-in-charge will call the Guidance Clinic at 434-9028 and give them the name and date of birth of every Marchman Detainee brought to the jail. The notification must be noted on the form.

- Detaining Deputy's Assessment of Marchman Detainee
  - Any "yes" response requires a written explanation from the Detaining/Transporting Deputy in the space provided
  - Detention personnel shall not sign the form until the Marchman Detainee has been accepted into the detention facility for involuntary admission.
- Report of Law Enforcement Deputy Initiating Protective Custody
  - The Detaining/Transporting Deputy

must check the boxes that he or she feels are applicable to the Marchman Detainee.

- The first box **must** be checked. The second box **must** be checked. Either the third box or the fourth box (or both) **must** be checked.
- The Detaining/Transporting Deputy must provide a narrative that outlines the circumstances that support his or her this opinion for an involuntary admission into the detention center.
- A narrative that reads, “per the emergency room,” or “per the doctor” justifies an involuntary admission into a hospital or a detoxification facility, but not the detention facility. Again, the law does **not** allow a doctor to order an involuntary admission to a detention facility.

#### **Detention Deputy’s Form to Complete**

Detention personnel must complete a Property Receipt Form after the Marchman Detainee has been accepted for involuntary admission into the detention facility:

- Money shall be taken from the Marchman Detainee, but not entered into Cobra. Money amount shall be written on the property card.
- If the Marchman Detainee is not able to sign, two deputies will sign the property card and note "INTOX" or “unable to sign.”
- Upon release, property or detention personnel will return the Marchman Detainee’s money that was taken from him/her at the time he or she was accepted for involuntary admission

#### **Medical Staff / KV/PK Deputy’s Form to Complete**

Medical staff must complete a Medical Assessment form before the Marchman Detainee can be accepted for involuntary

admission into the detention facility.

#### **Detention Personnel’s Forms to Complete**

Detention personnel complete a 15-minute Special Confinement Sheet after the Marchman Detainee has been accepted for involuntary admission into the detention facility.

- The 15-minute Special Confinement Sheet shall be posted in close proximity to the holding cell or isolation cell where the Marchman Detainee is temporarily housed.
- Detention personnel are responsible for checking the welfare of the Marchman Detainee at least every 15 minutes and documenting the checks.

Detention personnel will take two (2) photographs of the Marchman Detainee after the he or she has been accepted for involuntary admission into the detention facility.

- Detention personnel shall attach one (1) photograph to the “Marchman Act: Non-Criminal Detention” form
- Detention personnel shall attach one (1) photograph to the 15-minute Special Confinement Sheet prior to posting the confinement sheet near the holding cell or isolation cell where the Marchman Detainee will be temporarily housed

#### **Search / Temporary housing**

The Marchman Detainee shall be searched in accordance with policies and procedures.

The Marchman Detainee shall be placed in a holding or isolation cell away from persons under arrest. Multiple Marchman Detainees may be placed in the same cell if they are of the same sex. [FCAC 15.13]

#### **RELEASE POLICY AND PROCEDURES:**

If the Marchman Detainee was involved in a “use of force” while temporarily housed in one of the detention facilities, they shall be examined

by the medical staff before leaving the facility. When a "use of force" is used on a Marchman Detainee that is temporarily housed in KV/PK and medical staff will not be on-duty before the Marchman Detainee is due to be released, that facility will call fire rescue to examine the Marchman Detainee prior to release.

Detention personnel must contact a licensed service provider within eight (8) hours of detention.

- If a bed and transportation are available, the Marchman Detainee and their property shall be turned over to the Guidance Clinic for treatment along with the original Marchman Act Form and a copy of the Detaining Deputy's Assessment of Marchman Form. A copy of the Marchman Act Form shall be retained with our files.

**NOTE: If the Marchman Detainee is combative, assaultive, or unmanageable, they should not be transferred to the custody of the Guidance Clinic until their behavior improves to a level that will allow transfer. The Guidance Clinic's drivers cannot use any restraints while transporting. The Guidance Clinic will not accept a Marchman Detainee Act with a BAC over 0.30%.**

- If at the time of initial intake the Guidance Clinic is not able to accept the Marchman Detainee, they can be recontacted later for availability.

If arrangements cannot be made to release the Marchman Detainee to the Guidance Clinic, the Intake Sergeant shall have the responsibility to decide when the Marchman Detainee can be released. [FCAC 15.13]

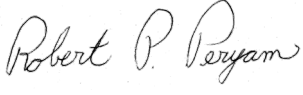

The minimum amount of time that a Marchman Detainee must stay is eight (8) hours. The maximum allowed by law is 72 hours. [FCAC 15.13]

Prior to release, the Marchman Detainee's blood alcohol content will be measured using a handheld sampling device. [FCAC 15.13]

The criteria for release is that the person's blood alcohol content is below 0.08% and the person

is able to walk unassisted and can provide coherent, appropriate verbal responses to questions such as: "What is your name? Do you know where you are? Who is the President of the United States?". Detention personnel must note the Marchman Detainee's blood alcohol content (BAC), at the time of release, on the Marchman Act: Non-Criminal Detention Form. [FCAC 15.13]

**NOTE: The Marchman Act Law only allows for the detention of adults in a county detention facility. Juveniles brought to the facility under the Marchman Act Law will NOT be accepted.**

**POLICY AND PROCEDURES:**

**Victim Notification Form**

The Arresting Deputy shall complete a Victim Notification Information Form for each arrestee. Monroe County Sheriff's Office (MCSO) Deputies will enter and link the victim from the Master Name Index (MNI). Some common mistakes to look for include:

- A business is listed instead of an individual's name.
- No phone number is provided.

- Defendant's name is missing.

If a member of the public, this agency, judge, or anyone else makes a request for release notification, a Victim Notification Information Form shall be completed by the person receiving the request. The victim shall be added to SmartCop following these steps:

- Create or update an MNI entry for the victim.
- Enter the victim in SmartCop Jail Booking by accessing the inmate's specific case. Click on "victims list", and then import the victim from the MNI.

## Notifying Victim Upon Inmate's Release [ALDF-7F-02]

When the inmate is being processed out of the facility, the victim is to be called before the inmate's actual release following these steps:

- The Records Supervisor / KV/PK I/R Deputy/designees will call the number(s) provided by the arresting deputy on the Victim Notification Information Form.
- Inform the victim, or other adult if the victim is unavailable, that the inmate is being released and the reason for the release (e.g., time served, bond posted, furlough, etc.).
- Tell the victim to contact 911 if they have any problems with the person being released.
- If you get an answering machine, leave a message about the release.
- If the line is busy or there is no answer, make two additional attempts to call the victim (for a total of three) at least ten minutes apart. The release process can then continue.

**NOTE: Do not delay the release of the inmate more than one hour for the purpose of victim notifications.**

The VINE system will also contact the victim by phone after the inmate is released from SmartCop. If the victim cannot be notified by phone by the VINE system or doesn't enter their PIN code when contacted, a Victim Notification Notice shall be mailed to the victim within two business days by Central Records Division.

- The Central Records Assistant will print the Victim Notification Notice.
- The Central Records Assistant will place the Victim Notification Notice in a Monroe County Sheriff's Office envelope addressed to the victim and send the envelope to the mailroom to be mailed out.

## Special Circumstances

- Inmate is being transferred to prison or other secure detention facility

Notify the victim by mail of the inmate's transfer. For security reasons, do not notify the victim by telephone of any transfers. If no address is available, telephone notification should be made the day following the inmate's transfer between 0800 and 2000 hours.

- Violent or assaultive felonies

If telephone notification cannot be made and the victim resides in Monroe County, contact MCSO Dispatch and request that a Road Patrol Deputy make the notification in person. Note this request on the Victim Notification Information Form. If a question exists about what is an assaultive or violent felony, contact the Shift Supervisor.

- The victim is a minor child

Follow all of the above procedures, but make the notification to the parent or guardian of the child. If mailing the notification, address it to the parents of the victim. If the parents' names are unknown, address it to "The Parents of (victim's name)".

- Escape of the inmate [ALDF-7F-02]

If the offender escapes from custody, the victim should be immediately notified. If telephone notification cannot be made, contact MCSO Dispatch and request a Road Patrol Deputy to make the notification in person.

When the escapee is returned to custody, the Jail Records Assistant / KV/PK I/R Deputy will call the victim and inform them of this.

- Work Release participants

Once an inmate is cleared to participate in the Work Release Program, the Work Release Specialist will contact Records to

establish whether or not a victim has been listed on the inmate's record.

If a victim has been listed, the Work Release Specialist will obtain all pertinent contact information for the victim and attempt to contact the victim via the telephone. The Work Release Specialist will keep a log that will include the offender's name, the victim's name, date and time called, whether the victim was available or if a brief message was left, synopsis of the conversation with

the victim, and any applicable information. Several attempts will be made to contact the victim via telephone with each attempt logged.

If no direct communication is made, a letter will be sent via the post-office notifying him or her that the offender has been approved to participate in the Work Release Program and will be outside the confines of the facility during their scheduled work hours.
